NEW technologies : Possible opportunity areas for the prepared. A.R. Procter. 3 :52.
NEWSPRINT DEINKING. Characterizing dispersion in newsprint deinking operations. F. Ruzinsky et al. (T202) 8 :30.
NIBBLING at the paper market : A new battle for electronic paper standards. A. Procter. 1 :64.
NOW and Then : P&PC at 100. A. Orzechowska. 5 :12.

O

OFFSET printing with wood-containing, filled, alkaline supercalendered paper. R. Ain et al. (T323) 12:88.
ONE step ahead: A proactive approach to community relations. A. Strang. (T290) 12:56.
ON-LINE analysis of dissolved substances in deinking and papermaking applications. T.M. Garver et al. (T230) 9 :39.
ON-LINE MEASUREMENT. Recent advances in on-line charge measurements. L. Bley et al. (T16) 1 :49.
ON-LINE tuning of malfunctioning control loops. L. Ettaleb et al. (T198) 8 :26.
ONLINE WITH PULP & PAPER: Making use of MIS data. D. Davies. 2 :17. Meeting for a purpose. D. Davies. 7 :15. Making the most of presentations. D. Davies. 8 :46.
OPEN Forum on communications papers. N. McCubbin. 4 :64.
OPEN Innovation: Harnessing external ideas and leveraging in-house R&D outside. A.R. Procter. 11:56.
OPTIMIZATION of paperboard production and prediction of end-use performance using multivariate analysis. I. Ivanov. (T34) 2 :28.
OPTIMIZATION. Using process modelling to improve lime kiln operations. J. Yuan et al. (T278) 11 :41.
OUTSOURCING finishing operations : Redefining the finishing room for survival in the 21st century. J.P. Dupré. 4 :10.

P

PACWEST CONFERENCE . Brave New World - A conference on strategies for progress. A. Orzechowska. 7 :10.
PAPER MACHINES. Worldwide investment overview. Special to Pulp & Paper Canada. 11 :17.
PAPER PROPERTIES. Characterization of paper properties from spruce and pine thermomechanical pulps : effect of refining intensity. M. Sabourin et al. (T88) 4 :37.
PAPERMAKING. Film press for pigment coating : A review. X. Zou et al. (T53) 3 :25.
PAPERMAKING. Fundamental problems controlling stock prep and short circulation processes. D. Lang et al. (T21) 1 :54.
PAPERWEEK International in Montreal : Making the most of the PaperWeek and Montreal. Special to Pulp & Paper Canada. 9 :Insert.
PAPERWEEK REVIEW. PaperWeek exceeded expectations. Awards and Honours. Pulp & Paper Canada Special Report. 3 :10. Tyne elected Chairman of PAPTAC. 3 :11.
PARTIAL discharges on low voltage stator windings subjected to voltage surges from IFDs. M. Fenger et al. (T30) 2 :24.
PERFORMANCE EVALUATION. A chemical reactor analysis of industrial oxygen delignification. A. Van Heiningen et al. (T331) 12:96.
PLUGGING prevention of recovery boiler by character improvement of the ash which used potassium removal equipment (Part II). A. Fujisaki et al. (T1) 1 :34.
POPULUS. Hemp chemical pulp : A reinforcing fibre for hardwood kraft papers. F. Correia et al. (T124) 5 :51.
PRECISION in maintenance planning, scheduling and work control. J-P. Bricteux. 11 :20.
PRESSURE SCREEN system simulation for optimal fractionation. T. Friesen et al. (T94) 4 :43.
PRINT QUALITY. The subjective print quality of commercial heatset offset prints on lightweight coated paper. D.C. Donderi et al. (T226) 9 :35.
PROCESS CONTROL. Improving pulp and paper process diagnostics and knowledge by means of multivariate analytical techniques (MVA). S. Wold et al. (T121) 5 :48.
PROCESS CONTROL. Making the PLC Internet-Ready. M. Rothwell. 8 :14.
PROCESS CONTROL. Real-time process data optimized electricity purchasing. G. Roussel. 12 :16.
PRODUCTION Dream & Maintenance Nightmare. Å.Nordlander. 8 :12.
PROFILE CONTROL. Recent trends in enhancing paper properties on supercalenders. R.N. Vyse et al. (T163) 7 :24.
PROFILE CONTROL. Robust optimal control of profiles using mulitple CD actuator systems. J. Shakespeare et al. (T261) 11 :24.
PULP & Paper Health & Safety Conference : Looking out for each other's safety. J.M. Ellson. 7 :62.
PULP and Paper Canada on-line. N. McCubbin. 3 :53.
PULP and Paper in Canada : Its First Century. M. Kuhlberg. 5 :16.
PULP MILLS. Economics and feasibility of a greenfield cereal straw market pulp mill. A. Shrinath et al. (T243) 10 :34.
PULP REFINING. Is there untapped potential in pulp refining? R.J. Kerekes. 12 :21.
PULPING & Bleaching : Highlights of current and emerging technologies. L. Lapierre et al. 10 :12.
PURSUIT of safety excellence. J. Little. 2 :54.
PUTTING « The Crosshairs » on Moose and Maintenance Systems. S. Lanzl. 12 :25.

Q

QUANTIFICATION of the three-dimensional paper structure : Methods and potential. R. Holmstad et al. (T186) 7 :47.
QUANTITATIVELY relating ink jet print quality to human perception. R.R. Rosenberger. (T63) 3 :35.

R

R&D Trends : The evolution of strategic research thinking. A.R. Procter. 5 :68.
REACTION KINETICS. Influence of carbon dioxide on the kinetics of the reaction between sodium carbonate and sodium trititanate. I. Nohlgren et al. (T4) 1 :37.
REAL-time process data optimized electricity purchasing. G. Roussel. 12 :16.
RECENT advances in on-line charge measurements L. Bley et al. (T16) 1 :49.
RECENT developments in paper deinking technology. J.K. Borchardt. 5 :32.
RECENT trends in enhancing paper properties on supercalenders. R.N. Vyse et al. (T163) 7 :24.
RECOVERY FURNACES. Application of an in-furnace NOx removal system for recovery boilers. Y. Arakawa et al. (T42) 2 :36.
RECOVERY FURNACES. Corrosion as a cause for recovery boiler damages. F. Bruno. (T143) 6 :28.
RECYCLING. Effect of initial repulping pH on the deflaking rate of recovered papers. F. Brouillette et al. (T174) 7 :35.
RECYCLING. Following the Paper Trail : Towards a Healthy Environmental Paper Sector. A. MacDonald et al. 8 :17.
RECYCLING. Improved sticky determination method as a useful tool for the evaluation of the macro sticky forming potential of printed products. C. Ackermann et al. (T38) 2 :32.
REFERENCE library on your lap. 2 :53.
REGULATIONS. Trends in air emission limits for world class mills. D. Bruce et al. (T190) 7 :51.
REJUVENATION : Challenges and opportunities in the pulp and paper industry. E.W. Leaver et al. 4 :14.
REMOVAL of sodium thiosulphate from partially oxidized white liquor and use of the thiosulphate-lean solution in bleaching. N. Jemaa et al. (T298) 12:63.
RESEARCH & DEVELOPMENT. Harvesting technological progress. P.J. Greenbaum. 10 :22.
ROBUST optimal control of profiles uisng multiple CD actuator systems. J. Shakespeare et al. (T261) 11 :24.
ROTOGRAVURE print quality evaluation analysis, pitfalls and statistics. H.U.Heintze (T329) 12:93.
RUNNABILITY. The importance of cleaning and deposit control in improving paper machine efficiency. (T194) 8 :22.
